so as i can co-ordinate agreed budgets for icosi working parties and task forces would value receiving reply by telex from you giving details of authorised expenditure for your group by board of governors stop i will be proposing at leeds that icosi budget year should follow calendar year stop therefore please show how much money will have been spent by this year end, monies committed and your estimate of budget monies required for calendar year 1979 to support your activities stop would also value having details of how monies have been spent by companies so that allocation of each company's share of icosi costs can be made

regards

richard haddon
